Occupation in Numbers

- 17 Palestinians killed
- 361 Palestinians injured
- 242 administrative detentions
- 30 honey beehives stolen by Israeli settlers
- 833 attacks against Palestinians
- 797 dunums razed
- 70 homes demolished
- 1 mosque demolished in Hebron
- 1 school attacked by tear gas
- 1 Palestinian activist banned from returning home
- 116 plans to expand Palestinian towns in West Bank rejected by Israeli occupation
- 1 UN envoy denied entry
- 1 Human Rights organization tour prevented

ISRAEL DENIES UN ENVOY FROM ENTERING PALESTINE

Israeli occupation authorities are deciding whether to bar Francesca Albanese, the special rapporteur on the situation of human rights in the Palestinian Territory occupied Since 1967, from entering occupied lands.

Albanese is an international lawyer and researcher who has worked for the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) and extensively on the Palestinian issue.

Albanese is not the first UN representative to be denied access to the Occupied Territories by the Israeli occupation authorities.

Her predecessors, Michael Lynk and Richard Falk, were repeatedly prevented from visiting due to their critical stance on the Israeli atrocities against Palestinians.

ISRAEL BAN ENTRY OF MEDICAL EQUIPMENT TO GAZA STRIP

Israel's ongoing ban on the entry of urgently needed medical equipment to Gaza threatens the life of patients

Israeli occupation authorities prevent the entry of many spare parts needed to maintain existing equipment. This led to the halt of offering a wide range of medical services across the Palestinian hospitals in the besieged Gaza Strip.

The most urgently needed equipment is the Interventional Radiology Device, which was funded by a donor and was bought and has been waiting for a long time in the occupied West Bank.

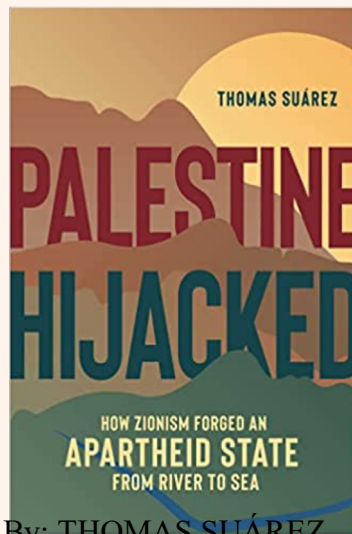

MEET DR. AHMED BASSALAT

Dr. Ahmed Bassalat is a professor in the Physics department and the team leader of the ATLAS-CERN group at An-Najah National University. He received his PhD in Particle Physics from Paris Saclay University in 2016. Dr. Bassalat is carrying out joint research between An-Najah University and Paris Saclay University through which he did a full year research visit (2021/2022) at the IJCLab at Paris Saclay. He founded the Centre of Excellence in High Energy Physics in Palestine (CEHEP₂) sponsored by CERN. He initiated the Winter School in High Energy Physics in Palestine (WISHEPP) in collaboration with the IJCLab and CERN and has chaired it since 2016. He managed a few European mobility projects. Dr. Bassalat leads many actions that help involve the Palestinian universities in High energy Physics via a close collaboration with many European institutions and universities, CERN, IJCLab, Paris Saclay University and ICTP.

In the last 5 years he scored a total of 138 H Index, ranked number one in Palestine, ranked number 44 in Asia, and number 477 in the world being one of the 2% highest ranked scientists in the world.

A BOOK TO READ PALESTINE HIJACKED: HOW ZIONISM FORGED AN APARTHEID STATE FROM RIVER TO SEA

By: THOMAS SUÁREZ
NOV. 2022

The book presents the violent take-over of Palestine by a European racial-nationalist settler movement, Zionism, using terror to assert by force a claim to the land that has no legal or moral basis.

Drawing extensively from original source documents, many revealed here for the first time, Suárez interweaves secret intelligence reports, newly-declassified military and diplomatic correspondence, and the terrorists' own records boasting of their successes. His shocking account details a litany of Zionist terrorism against anyone in their way the indigenous Palestinians, the British who had helped establish Zionism, and Jews who opposed the Zionist agenda.

Far from being isolated atrocities by rogue groups, the use of terror was deliberate and sustained, carried out or supported by the same leaders who then established and led the Israeli state. We are still living this history: The book proves that Israel's regime of Apartheid against the Palestinians and the continued expropriation of their country are not the result of complex historical circumstances, but the intended, singular goal of Zionism since its beginning.

PALESTINE AND HUNGARY
